OFFICAGO, May 21.—Peculiar waves were seen in Lake Michigan off Jackson Park last night. The water rose and recoded at intervals and several yachts were torn from their moorings and damaged. # How We Make Non-Fading Shirts

We own a peculiar process by which we make shirt fabrics

It also doubles the wear of the shirt. It is called "The Phillips-Jones Process." Every fabric it touches becomes color-fast for all time. We are putting this fabric into our Emperor Shirts, which retail at \$1 and up. We cannot describe the process, for it is a costly secret. But we point to the shirt and say—

#### Do You Wear a Truss? Are You Properly Fitted? Were You Charged a Fair Price?

Perhaps nowhere are "square dealing" and skill more necessary than in fitting and selling trusses. Between the very few high priced but able and conscientious truss makers and the army of fakirs who prey upon unfortunates, the wearer of a truss is often bewildered. Unless he is sure he is dealing with a reliable party, he may not be properly fitted; and very often he is compelled to pay \$25, \$50 or even more for a truss which his own judgment tells him is not worth more than a few dollars.

Riker and Hegeman have been making and fitting trusses for years. No one can make a better truss than ours; no one can fit a truss more accurately than our experts can. Our prices are fair and honest. You are absolutely sure of "square deal-

ing" when you come to us for your truss needs; we will fit you properly, and our prices will save you 25% to 75%. Back of every truss we sell is our guarantee of complete satisfaction.
